

STUDENT SCHOLARSHIPS

Through the generosity of an anonymous donor, MCHT is proud to offer free admission to students with a Maine connection whose studies include an environmental, nonprofit, or sustainability focus. The scholarship covers the cost of registration on Saturday only (though except for the evening reception, Friday events are free for all). To apply, write a short essay that briefly describes your course of study, what you think you might like to do when you graduate, and how you hope attending the conference will help you with your goals. Send your application to Donna at dbissett@mcht.org with the subject line: Conference Scholarship application. You may also contact Donna with any questions relating to conference scholarships.
