

## Resources for Exploring Issues of Diversity, Equity, and Inclusion

### DEI Resource List Intro and Submission Instructions

The Land Trust Program at Maine Coast Heritage Trust initiated this list in response to a strong interest among its constituents to address the issue of equal access to conserved lands for all. We wish to acknowledge that the broad issue of diversity, equity, and inclusion, which has lately gotten a great deal of national attention nationally, is deeply complex. We are approaching this issue with extreme care, and starting slowly by offering this resource list. We hope it will help people begin to explore this complicated and nuanced subject, and spark respectful discussion and discourse.

We believe this resource will be most vital and useful if/when users feel a sense of ownership. Anyone and everyone should feel free to submit items for inclusion; in addition, if we, as keepers of the list, have a blind spot or are missing something you have found helpful, please [contact us](#) to share your viewpoint. When submitting items for consideration, please follow the guidelines below. You may notice our criteria are broader than found elsewhere. That is because our goal is to widen the lens of what credible and useful expertise includes.

MCHT reserves the right to decide not to include a submission. If we do, we will provide the reason for that decision.

### INSTRUCTIONS FOR SUBMITTING RESOURCES FOR INCLUSION

To submit a resource for inclusion on this list, please email it, or a link to it, to the [Land Trust Program](#) at Maine Coast Heritage Trust.

When submitting a resource for inclusion, please characterize your submission and BE SPECIFIC. Some examples are:

- You have read/tried the resource yourself and found it useful.
- The resource was recommended to you by someone you trust.
- You haven't read/tried the resource, but you thought it was interesting and worth sharing.
- The resource meets traditional standards of academic rigor or a more traditional approach to learning.

If you use something from this list, please report back to us! Over time, the only way to truly determine whether any item on the list is worthwhile is to test it in the real world.
